

NEURVANA® SexualDesire.

Sensuality, Pleasure, Performance

NEURVANA SexualDesire is a synergistic combination of research-proven nutraceutical factors for better sex in men and women.

- ✓ Stronger sex drive, faster arousal, more pleasure and longer-lasting on-demand performance in Men.
- ✓ Increased sexual desire, faster arousal, longer lasting o's, greater intensity and more sensual pleasure in Women.
- ✓ Activates the brain centers for feeling love, self-love, affection and sexual desire

NEURVANA SexualDesire contains a synergistic working combination of nutraceutical factors that increase neurotransmitters, boost sex hormones, release nitric oxide and increase blood flow for better sex in men and women

NEURVANA SexualDesire contains libido-boosting neurotransmitters, vasodilators, sex hormone regulators, pleasure center stimulators and nitric oxide activators that work synergistically through different neural pathways to:

- Increases sex hormones, neurotransmitters, nitric oxide and blood flow in Men for a stronger sex drive, faster arousal and longer-lasting on-demand performance.
- Increase sex hormones neurotransmitters, , and sensory perceptions in Women for increased sexual desire, faster arousal, longer lasting o's, greater intensity and more sensual pleasure.
- Activates the brain centers for feelings of romance, love and sexual desire.

NEURVANA SexualDesire helps a man's penis enlarge by expanding the Corpora Cavernosa, which subsequently increases blood flow.

Users of **NEURVANA SexualDesire** may experience heightened, more intense orgasms, more pleasurable emissions along with greater sensitivity, stamina and performance.

BENEFITS & FEATURES

NEURVANA Sexual Desire contains a synergistic working combination of nutraceutical factors that increase neurotransmitters, boost sex hormones, release nitric oxide and increase blood flow for better sex in men and women

Beta-phenylethylamine (PEA) is a naturally occurring neurohormone/neurotransmitter (chemical signal messenger between nerves) that's increase the activity of the major neurotransmitters and improve your sexual functions.

- PEA increases the effects of dopamine (for increased libido and feeling pleasure), norepinephrine (the brain's stimulant for energy, stamina and higher performance) and acetylcholine (for improving mental activity).
- PEA is a neurotransmitter in the limbic system (the brain's emotional center) that increases motivation, physical drive, sexual feelings and social/sexual activity.
- PEA is known for its aphrodisiacal qualities and producing feelings of romance and love. According to research, PEA may be the hormone of libido, not just testosterone.
- High PEA levels lead to increased sex drive and activity, while low levels reflect the loss of libido in depressive mood states..

L-Arginine, is a amino that increases blood flow to the genital area, increases sensation to the sex organs, improves sexual functioning and enhances the pleasures of sex.

- **L-Arginine** is a precursor to forming nitric oxide that relaxes arteries and small blood vessels. This improves sexual response by maintaining blood flow to the penis or clitoris.
- **L-Arginine** increases vasodilation and blood flow to the penis for improving erection functions.
- **L-Arginine**, promotes protein synthesis, muscle growth, increased lean body mass, stronger immunity and tissue repair.
- By relaxing arteries and increasing blood flow, **L-arginine** can speed up muscle repair and recovery.

LJ100 Extract is a standardized botanical extract of *Eurycoma longifolia* that boosts libido, sexual functions and physical performance in men and women..

- **LJ100 Extract** works by activating enzymes to form serum testosterone.
- Increased free-testosterone translates to feelings of well-being, increased sex drive, improved physical performance, quicker recovery from exercise, improved mental focus and immune system function and reductions in body-fat.
- **LJ100 Extract** promotes anabolic actions for improving muscular performance when exercising.

Cnidium Monnier Extract has been used in China as a natural libido booster for thousands of years.

- **Cnidium Monnier Extract** works by increasing nitric oxide release and inhibiting PDE-5 that improves erection function.
- **Cnidium Monnier Extract helps** relax the corpus cavernosa of the penis, (the chambers in the penis that fill with blood during an erection), allowing blood to flow freely and helping to produce an erection.
- The release of nitric oxide from **Cnidium Monnier Extract** can support longer-lasting erections.

Tribulus Terrestris extract supports a stronger libido and better sexual performance.

- **Tribulus Terrestris extract** stimulates the pituitary gland which promotes the secretion of Leutinizing Hormone (LH), which leads to increases in unbound, free-testosterone.
- **Tribulus Terrestris extract** has been shown to promote fat loss, increase muscle mass, and boost endurance for better physical performance

Epimedium Sagittatum Extract has been used as a sexual tonic in Traditional Chinese Medicine for several thousand years.

- **Epimedium Sagittatum Extract** contains icariin, an inhibitor of PDE-5, which relaxes the corpus cavernosa of the penis allowing blood to flow freely and helping to produce an erection.

Korean Red Ginseng called the king of herbs is well known for its sexual effects.

- **Korean Red Ginseng** contains ginsenosides that facilitate penile erection by directly inducing the vasodilation and relaxation of penile corpus cavernosum.

USAGE & WARNINGS

Recommended use:

Take 3 tablets daily per day on an empty stomach.
Take 2-3 tablets one hour before sexual activity for better performance and added pleasure.

WARNINGS:

DO NOT USE IF YOU ARE UNDER THE AGE OF 18 YEARS.

DO NOT USE IF YOU ARE PREGNANT OR NURSING

If you are on medication or have a health condition consult a Physician before using this product.

Keep out of reach of children

SUPPLEMENT FACTS

Supplement Facts		
Serving size 1 tablet		
Servings per container 60		

	Amount Per Serving	% Daily Value

Beta-Phenylethylamine HCL	135mg	*
Icariin (Epimedium Leaf extract)	60 mg	*

Proprietary ProSexual Blend	735 mg	

Other ingredients: Soy Lecithin, Caprylic/Capric Triglycerides, Stearic Acid, Magnesium Stearate, Microcrystalline Cellulose
